PHOTOGRAPHY
Mikkel Adsbøl

ART DIRECTION
Sigrid Gry Laursen

Our surroundings shape our identity, mood, and state of mind. More than ever, it is important to engage the senses, the touch and the feel of things. In this year's Open collection, we work with new materials such as recycled stoneware, FSC certified wood and Oekotex textiles in earthy colours that complement the Tine K Home story.

We believe appearance, quality and comfort matter in order to create a complete visual expression. Natural materials and textures evoke feelings of cohesion and balance.

With the Open collection we want to create an open and warm atmosphere, that celebrates the beauty of everyday life.

— **Tine**
