# HOW IT'S MADE

Informations about what our furniture is made of

**SOFT COLLEKTION**

Our soft collection consist of our SOFASOFTL, CHAIRSOFT120 and POUFSOFT.  
The clean lines and organic shapes give a calm and elegant expression.

**CORPUS**

The corpus are produced of FSC certified pine wood or beech wood combined with fiberboard, solid cardboard and FSC certified particleboard.

**SEAT**

For keeping the comfort of the seats there is used Nosag (wave springs). High flexible foam is glued on the corpus with hypoallergenic silicone stuffed pockets (chambers).

**CUSHION**

Hypoallergenic silicone-filled pockets (chambers to avoid the migration of silicone) are used for back cushions with wadding on top.The chair have an extra seat cushion of high flexible foam with wadding above in a 100% cotton cover.

**COVER**

The corpus cover is sewn in 100% cotton, to secure the foam stays at its place.

**LEG**

After upholstery (upholstery binders) the cotton cover, the FSC certified beech wood legs are screwed on.
