HOW IT'S MADE

Informations about what our furniture is made of

SOFT COLLEKTION

Our soft collection consist of our SOFASOFTL, CHAIRSOFT120 and POUFSOFT.
The clean lines and organic shapes give a calm and elegant expression.

CORPUS

The corpus are produced of FSC certified pine wood or beech wood combined with fiberboard, solid cardboard and FSC certified particleboard.

SEAT

For keeping the comfort of the seats there is used Nosag (wave springs). High flexible foam is glued on the corpus with hypoallergenic silicone stuffed pockets (chambers).

CUSHION

Hypoallergenic silicone-filled pockets (chambers to avoid the migration of silicone) are used for back cushions with wadding on top.The chair have an extra seat cushion of high flexible foam with wadding above in a 100% cotton cover.

COVER

The corpus cover is sewn in 100% cotton, to secure the foam stays at its place.

LEG

After upholstery (upholstery binders) the cotton cover, the FSC certified beech wood legs are screwed on.
